

We are P-curiosity Lab Extract Value From Problems

An innovation lab to design a new farmers services bio-inspired

Start A Project >

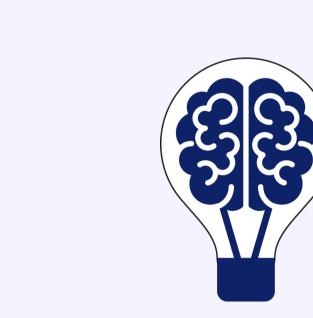

We observe, we Design, we Prototype we Test then we Serve. We think about innovation in both ways, to deliver innovative & radically inclusive services,

and as a solution for market Challenges "

Learn More →

PCL OBJECTIVES

Groom and Incubate innovative ideas in early stages (from the ideation phase)

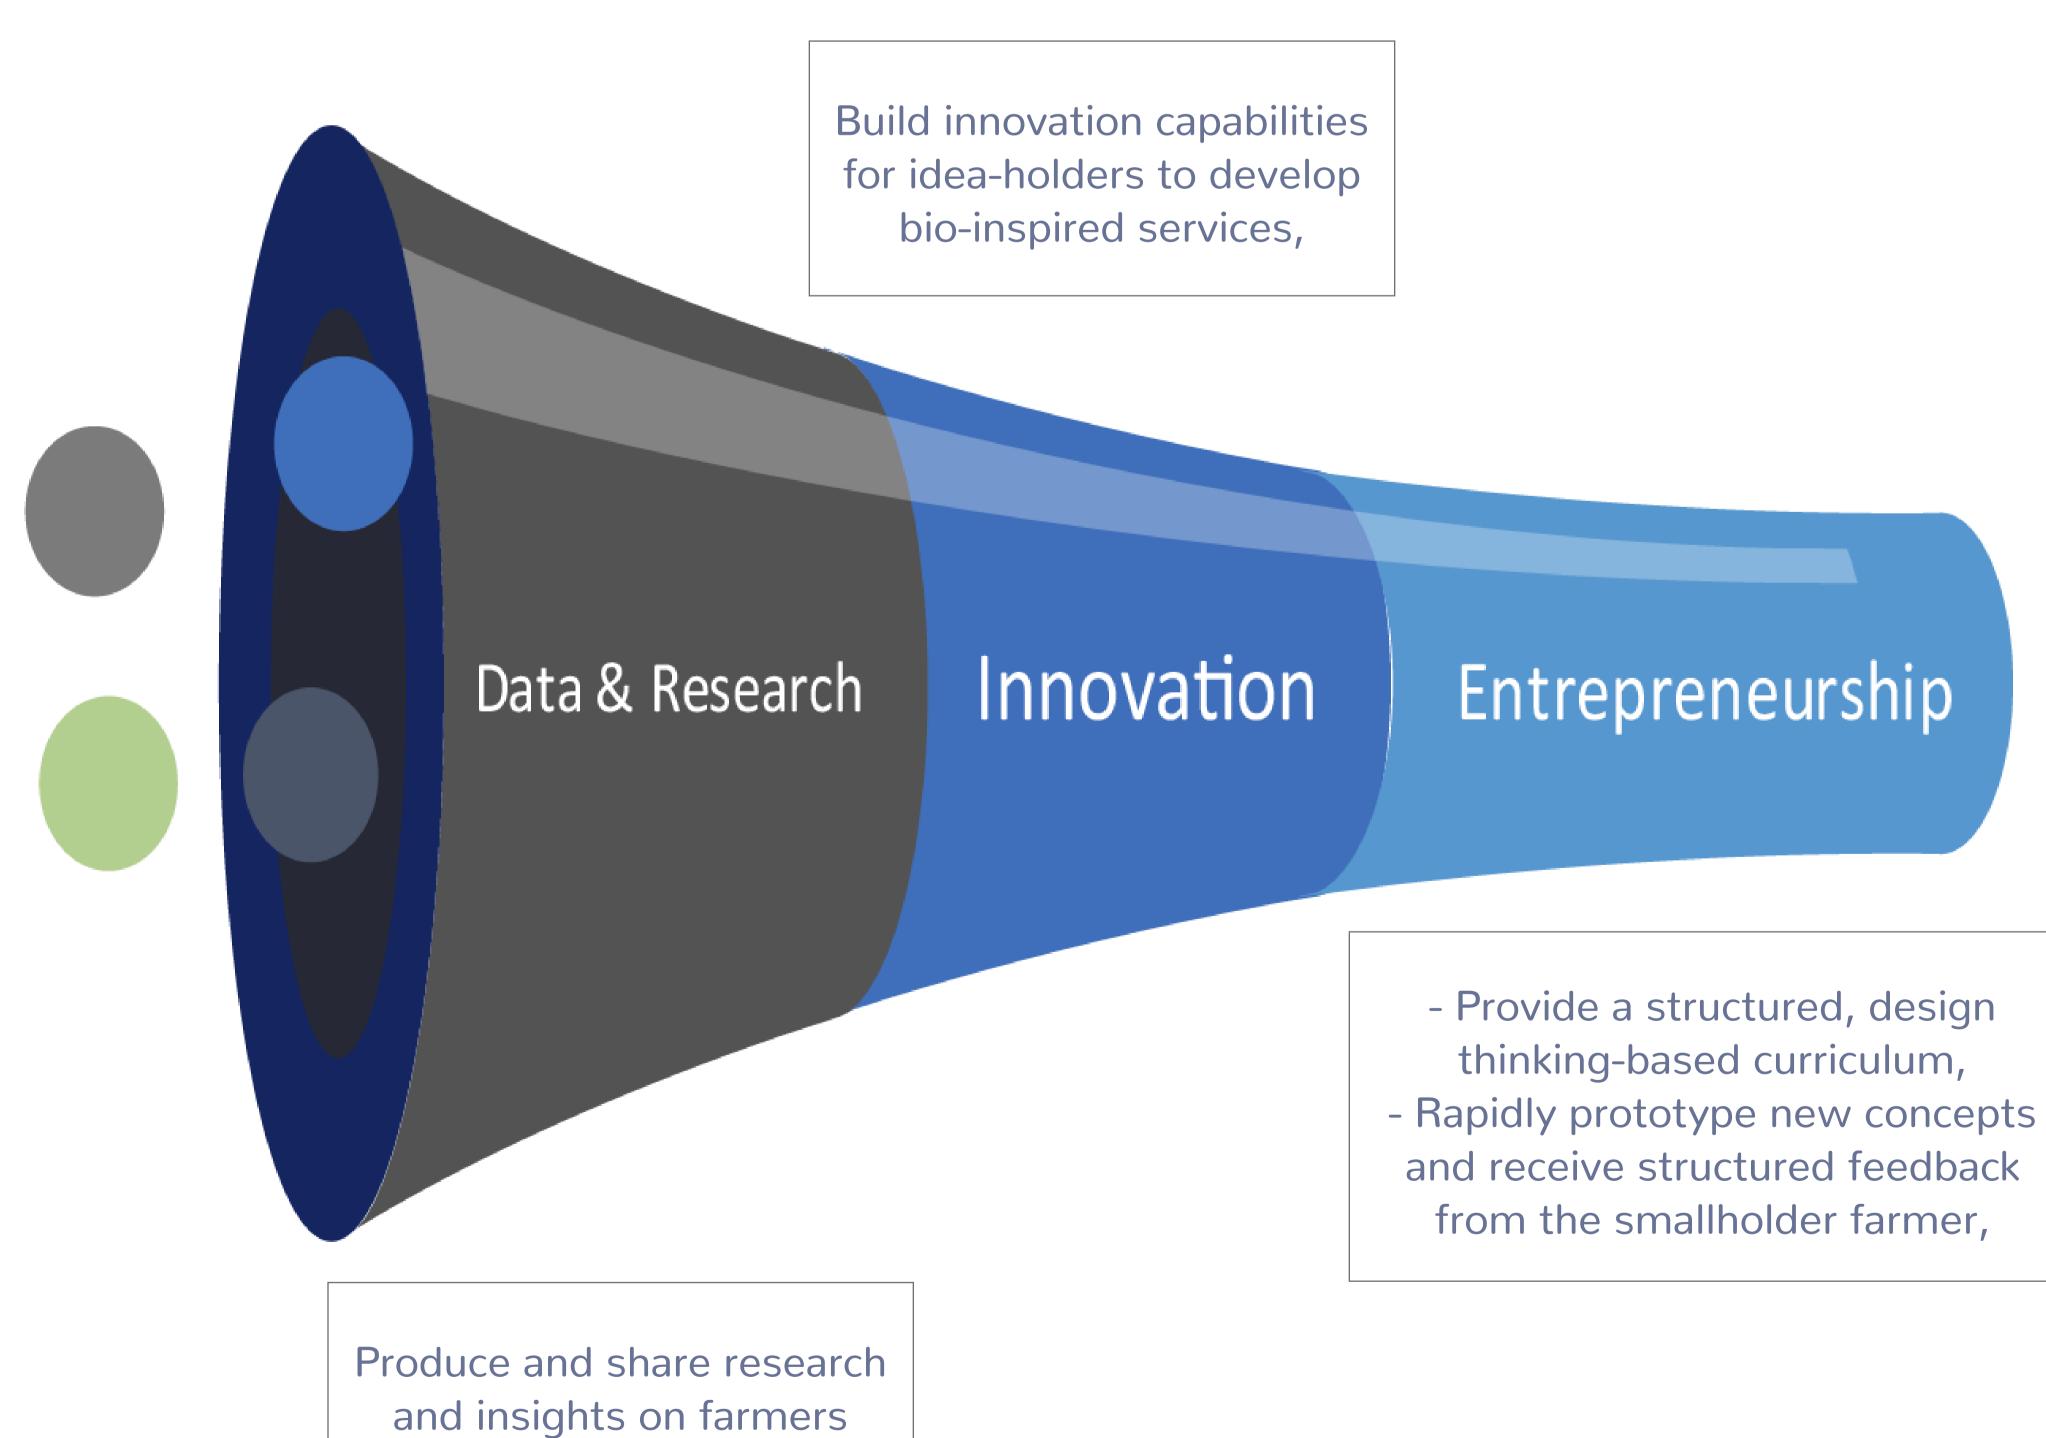

Focus on Corporate Innovation challenges

Valorize data-driven insights in order to boost go-to market services

HOW DOES IT WORK?

needs and challenges.

WHAT WE OFFER?

To Rural Communities

To Idea-Holders

To Business

To Researchers & Scientifics

Bringing knowledge to market: Where innovation starts. That is our slogan and it complements our

To researchers & scientifics

knowledge development and education. We translate our academic and technological findings into solutions that help tackle smallholder farmers challenges. Successful knowledge valorization gives us a position at the heart of the africain knowledge economy. **Business expertise center:** We do that within our expertise center by translating knowledge to

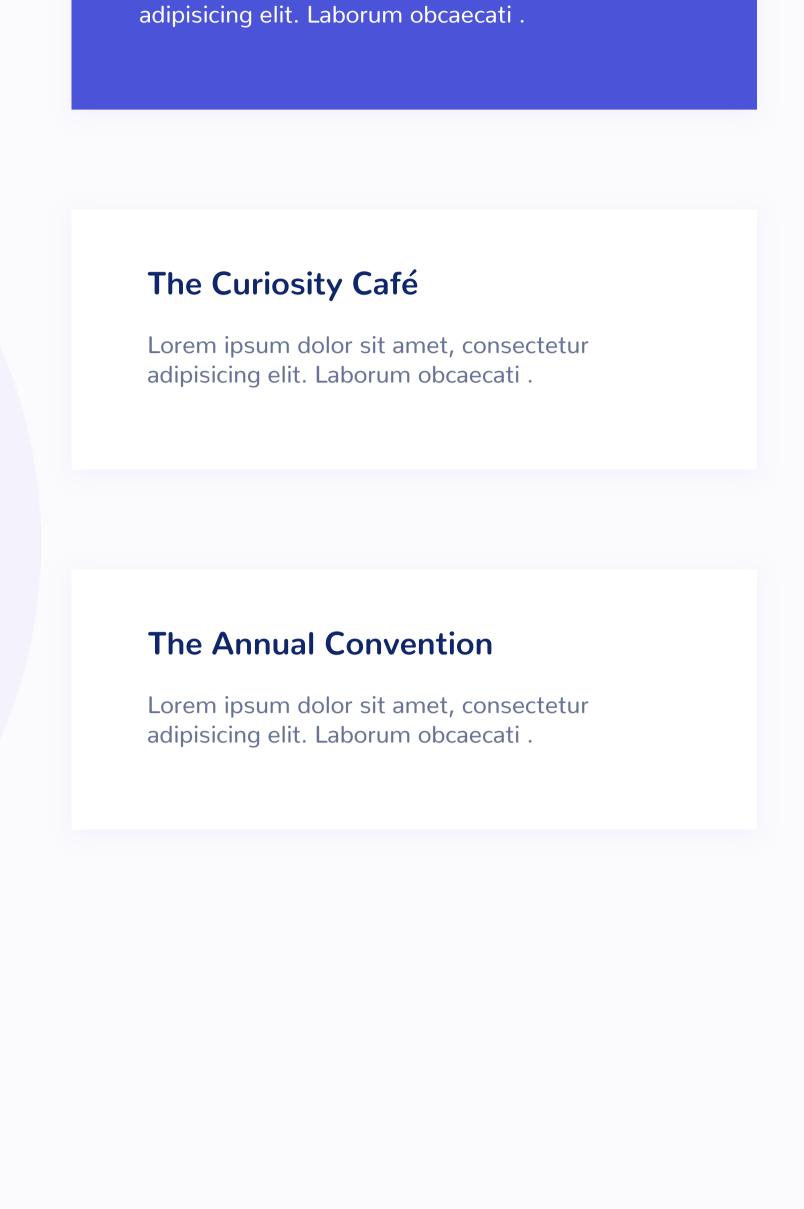

business. For this purpose we have an enthusiastic and experienced team

of experts and business advisors available to help PCL. Read More
